WPML Multilingual Translation

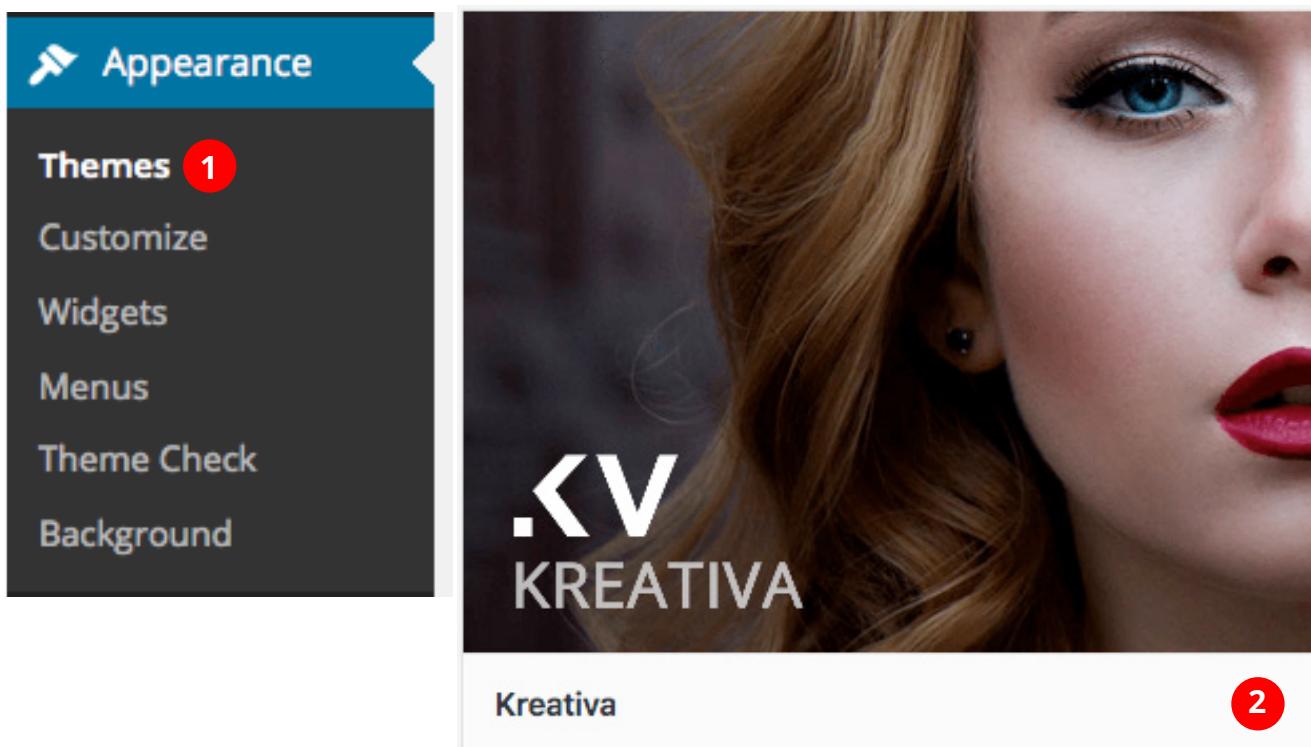

Theme options string variables is provided in theme root folder by file name wpml-config.xml . It requires WPML string translation plugin to translate these strings.

SUPPORT FORUM

<http://support.imaginemthemes.co/>

Installing Kreativa Theme via FTP to Wordpress

1. Download the zipped theme pack to your local computer from themeforest and extract the ZIP file contents to a folder on your local computer.
2. Using an FTP client to access your host web server.
3. Upload the Theme files in the extracted folder called 'kreativa' (its inside the extracted 'kreativa-packed') to wp-content/themes directory provided by WordPress. Please make sure you're uploading the files from the extracted kreativa zip.
4. Visit Administration > Appearance > Themes, under the Manage Themes tab, under the Available Themes, if necessary navigate to the page displaying that Theme, then click the Activate link to make the Theme, the Current Theme.

Activating required Plugins

Theme Activated

Once theme is activated you can begin Installing the mentioned plugins.

Importing Demo Data

Importing Demos

The screenshot shows the Kreativa theme dashboard. On the left, there's a sidebar with the following menu items:

- Appearance
- Kreativa
- Kreativa Demos** (with a red notification badge containing the number 1)
- Theme Plugins
- System Status

The main content area has a title "Kreativa Demos" and contains the following text:

Import demo data includes demo images.
To get familiar with the theme please check the [Help Guide](#). The Help Guide is also included with the download pack from Themeforest for offline reading.

Please [Register](#) at our [Support forum](#) if you need to contact support.

Thank you for choosing Kreativa Photography Theme!

Below this text is a large image of a woman's face with blue eyes and red lips. Overlaid on the image is a dark rectangle with the text "Classic Demo". Below the image, the Kreativa logo (.KV KREATIVA) is displayed. At the bottom of the image, there are three buttons: "Classic" (disabled), "Import Demo" (highlighted with a red border and a red notification badge containing the number 1), and "Preview".

Activate Kreativa Demo plugin for this feature availability
Click 'Kreativa Demos' and select the Demo to import.

Building Main Menu

Building the Menus - Create Menu

The screenshot shows the WordPress dashboard's Appearance section, specifically the 'Menus' page. On the left sidebar, the 'Menus' item is highlighted with a red circle containing the number 1. A red circle with the number 2 points to the 'create a new menu' link in the main content area. A red circle with the number 3 points to the 'Enter menu name here' input field in the 'Create Menu' panel on the right.

Building the Menus

- Create an Item

The screenshot shows the WordPress Customizer interface for building menus. On the left, there's a sidebar with sections for 'Pages', 'Links', 'Categories', and 'Format'. Under 'Links', a new menu item is being created with the URL 'http://yourdomain.co' and the link text 'Home'. An 'Add to Menu' button is visible. A dotted line connects this item to the main menu structure on the right. The main menu structure shows the 'Home' item with the URL 'http://www.yourdomain.com/' and the navigation label 'Home'. Other fields shown include 'Title Attribute' (empty), 'CSS Classes (optional)' (empty), and 'Description' (empty). A 'Custom' button is also present.

1

Create Home Button

From Custom Links box , enter URL and Label. Click 'Add to Menu'

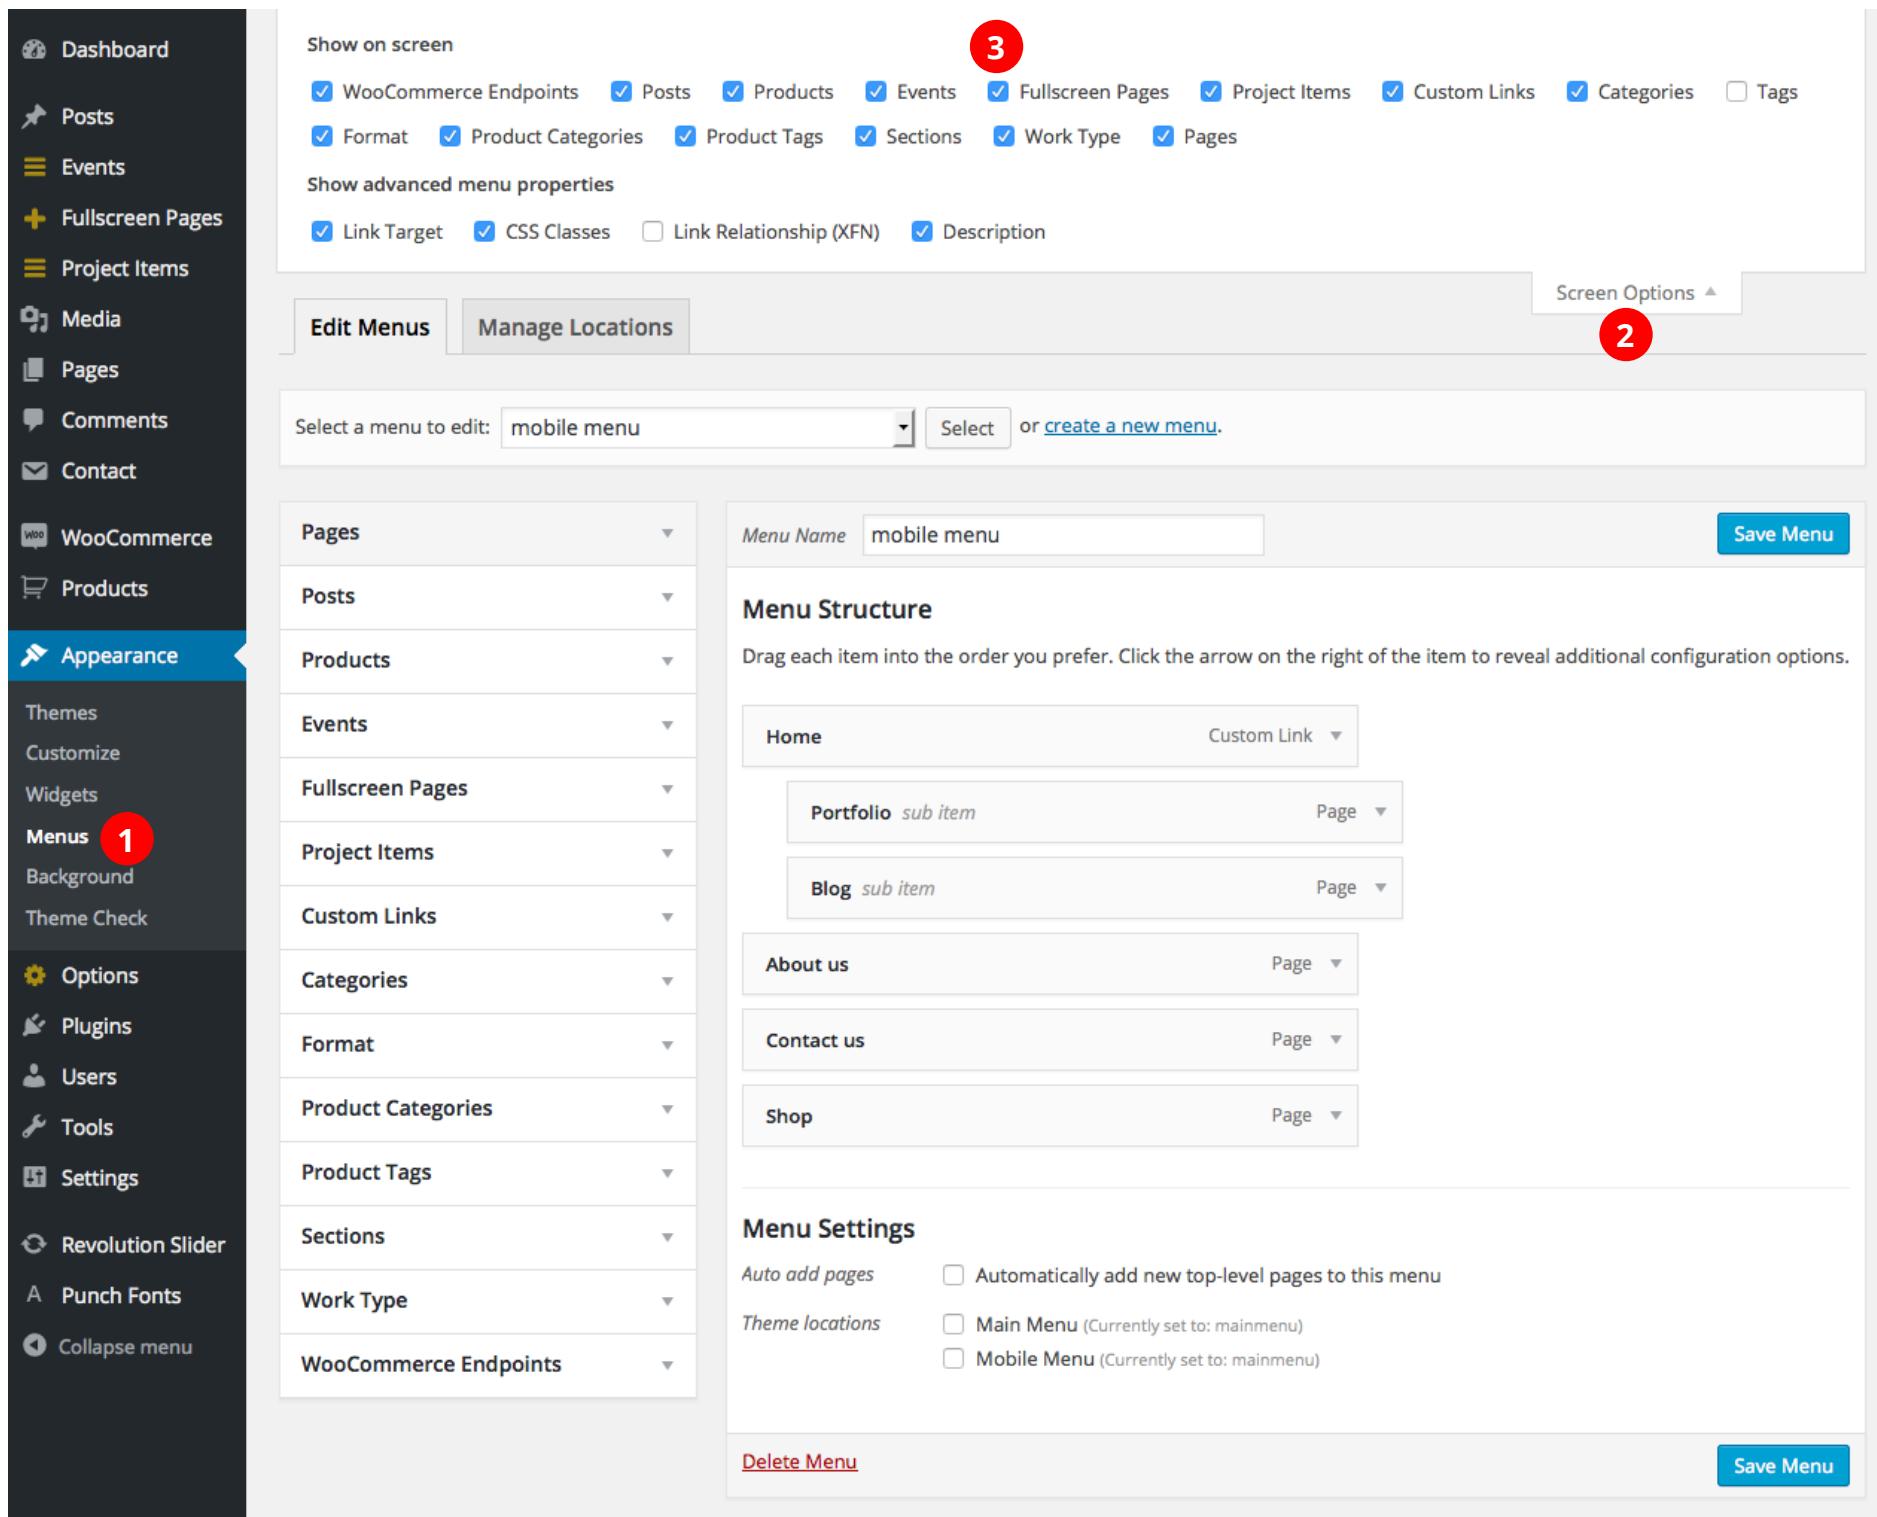

2

Title

Fill Title

Building the Menus

- Displaying Menu Sections - Screen Options

The screenshot shows the WordPress dashboard with the 'Appearance' menu selected (marked with a red circle labeled 1). In the main content area, the 'Edit Menus' tab is active. A 'Screen Options' button is highlighted with a red circle labeled 2. The 'Show on screen' section is expanded, showing various menu item types like WooCommerce Endpoints, Posts, Products, Events, Fullscreen Pages, Project Items, Custom Links, Categories, Tags, Format, Product Categories, Product Tags, Sections, Work Type, and Pages. Below this, the 'Show advanced menu properties' section includes options for Link Target, CSS Classes, Link Relationship (XFN), and Description. The 'Mobile Menu' is selected in the 'Select a menu to edit' dropdown. The 'Menu Structure' section displays the current menu items: Home (Custom Link), Portfolio (sub item, Page), Blog (sub item, Page), About us (Page), Contact us (Page), and Shop (Page). The 'Menu Settings' section includes options for Auto add pages (unchecked) and theme locations (Main Menu and Mobile Menu, both set to mainmenu). Buttons for 'Delete Menu' and 'Save Menu' are at the bottom.

Building the Menus

- Adding more items

The screenshot shows the 'Fullscreen Pages' section of the WordPress menu editor. On the left, there's a sidebar with categories like 'Pages', 'Products', 'Events', and 'Fullscreen Pages'. Under 'Fullscreen Pages', there's a list of recent items: Revolution Slider, Fullscreen Image, Photowall Portfolio, Kenburns & Portfolio Box, Kenburns & Blog Box, Kenburns & Event Box, Slideshow without Text, and Slideshow & Static Text. Below this list are buttons for 'Select All' and 'Add to Menu'. A red circle with the number '1' is placed over the 'Add to Menu' button.

Creating more items

Pages, Categories or Custom Post Types can be added easily by selecting and clicking 'Add to Menu'

The screenshot shows a hierarchical menu structure. At the top level, there are two items: 'Homepages' and 'Custom Link'. Below 'Homepages', there is a submenu titled 'Fullscreen Slideshow sub item' which contains four items: 'Fullscreen Slideshow sub item', 'Slideshow & Static Text sub item', 'Slideshow with Audio sub item', and 'Slideshow without Text sub item'. Below 'Custom Link', there is a submenu titled 'Fullscreen Youtube sub item' which contains two items: 'Kenburns sub item' and 'Kenburns with Audio sub item'. A red circle with the number '2' is placed above the 'Kenburns with Audio sub item' item, with a dotted arrow pointing upwards towards the 'Custom Link' item.

Indenting

Indenting the items creates sub menus.

Building the Menus

- Activating the menu

The screenshot shows the 'Manage Locations' tab selected in the top navigation bar. Below it, a message states: 'Your theme supports 2 menus. Select which menu appears in each location.' A table lists two theme locations: 'Main Menu' and 'Mobile Menu'. Each location has a dropdown menu labeled 'mainmenu' with 'Edit' and 'Use new menu' options. A red circle with the number '1' is placed over the 'mainmenu' dropdown in the 'Main Menu' row. At the bottom left is a blue 'Save Changes' button.

Theme Location	Assigned Menu
Main Menu	mainmenu <input type="button" value="▼"/> Edit Use new menu
Mobile Menu	mainmenu <input type="button" value="▼"/> Edit Use new menu

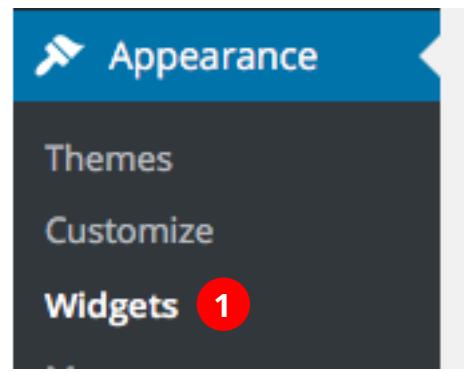

Save Changes

Assign Menu to Main Menu & Mobile Menu.
Or Select Different Menus for the sections.

Theme Style

The screenshot shows the 'Appearance' menu on the left with 'Theme Options' selected (marked with a red circle containing '1'). The main area is titled 'Theme Options' with a 'General' tab selected (marked with a red circle containing '2'). The 'General' section contains the following settings:

- Theme Style**: Styles found in theme root : style.css / style-light.css. It includes a toggle switch (set to 'Bright') and two buttons: 'Bright' (selected) and 'Dark'.
- Disable Comments in Pages**: Disables comments in pages even if comments are enabled in page settings. This setting has a blue toggle switch.
- Add Facebook Opengraph Meta tags**: Adds meta tags to recognize featured image, title and description used in posts and pages. This setting has a blue toggle switch.

Adding Site Logo

Theme Options - Setting Up Logo Menu Logo

The screenshot shows the WordPress Appearance settings page. On the left, under 'Appearance', the 'Theme Options' link is highlighted with a red circle labeled '1'. The main content area is titled 'Theme Options' and shows the 'Vertical Menu Logo' section. This section includes:

- A logo upload input field with an 'Upload' button, circled with a red number '3'.
- A slider for 'Vertical Menu Logo Width' set to 300 pixels, circled with a red number '4'.
- A slider for 'Top Space' set to 0 pixels.
- A slider for 'Left Space' set to 0 pixels.

The sidebar on the left lists other theme options: Themes, Customize, Widgets, Menus, Background, and Theme Options (circled with a red number '1').

Theme Options - Setting Up Logo Logo for Responsive Menu

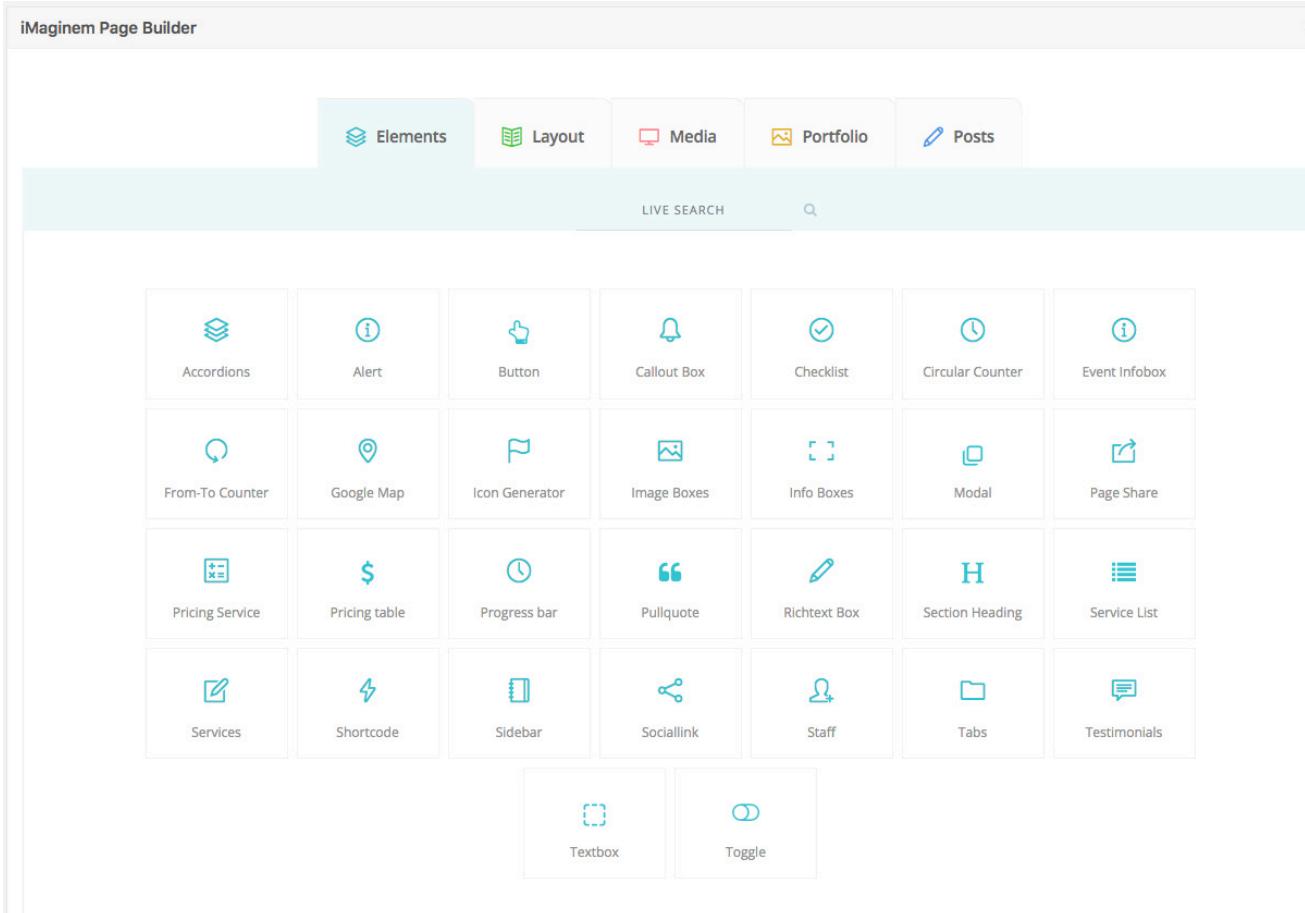

The screenshot shows the WordPress Admin dashboard under the 'Appearance' menu. A red circle labeled '1' highlights the 'Theme Options' link in the sidebar. The main content area is titled 'Theme Options' with a gear icon. Under 'General' settings, there is a section for 'Responsive Logo' which includes:

- Responsive/Mobile Logo:** A placeholder box for uploading a logo, with a blue 'Upload' button.
- Responsive Logo Width:** A slider set to 0 pixels, with a value input field showing 0 and a range from 0 to 2000 pixels.
- Responsive Logo Top Space:** A slider set to 0 pixels, with a value input field showing 0 and a range from 0 to 200 pixels.

Page Footer

Page Builder

PageBuilder

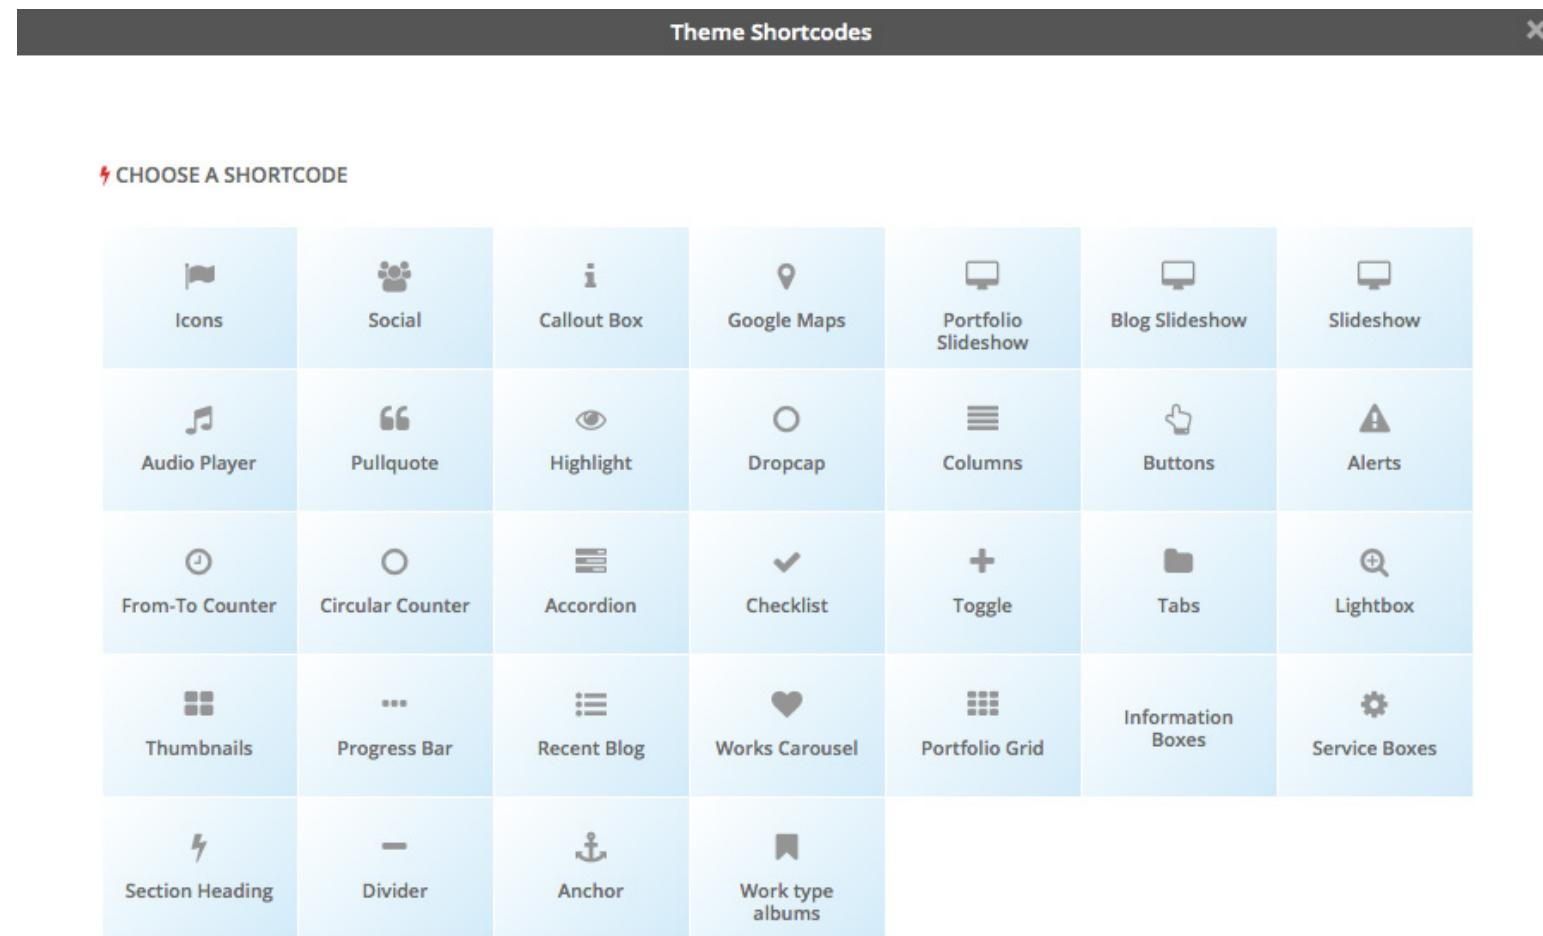

Imaginem Pagebuilder Help Guide

Kreativa theme uses the **imaginem PageBuilder**. A separate Help Guide is provided in the same folder as this Help Guide to describe how the PageBuilder works.

Please go through the Help Guide to familiarize with using the PageBuilder.

Shortcode Generator

Shortcode Generator Overview

Shortcode Generators

Shortcodes can be used to enrich your content. You can also use shortcodes combined with columns shortcode to create different layouts. This feature of theme doesn't require you to remember any of the shortcode syntaxes, and helps generate shortcodes on demand through the Visual Editor. Shortcode generator tab is displayed on all Visual content editors, Post, Page & Portfolios.

Clicking on each shortcode generator displays a window with choices to generate the shortcode.

Repeat 'Step 1' to create a set of Portfolio items and make sure they are added to Work Types.

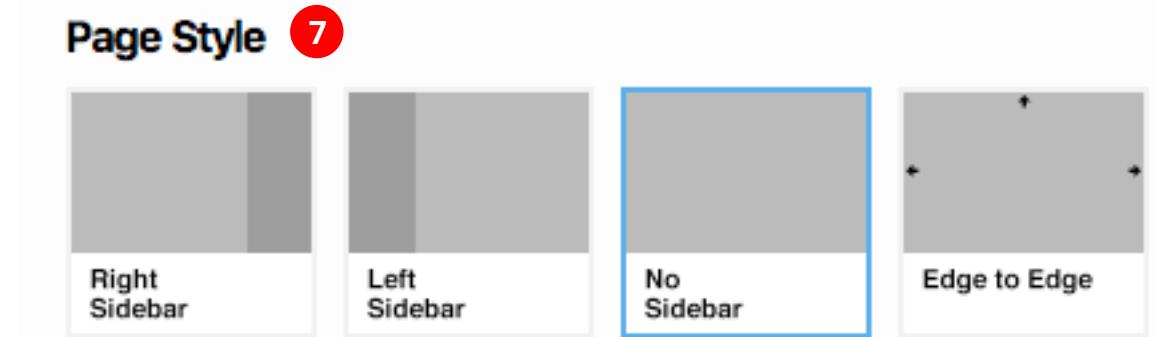

Once these steps are complete proceed to 'Step 2' on next Page.

Portfolio Gallery (Step 2 of 2)

Step 2

The screenshot shows the 'Add New Page' screen. On the left, there's a sidebar with 'Pages' and 'All Pages' buttons, and a red circle labeled '1' over the 'Add New' button. The main area has an 'Enter title here' input field with a red circle labeled '2' and a 'Use Pagebuilder for this page' checkbox with a red circle labeled '3' next to it.

The screenshot shows the iMaginem Page Builder interface. At the top, there's a navigation bar with 'Elements', 'Layout', 'Media', 'Portfolio' (which has a red circle labeled '4' over it), and 'Posts'. Below the navigation is a search bar with 'LIVE SEARCH' and a magnifying glass icon. The main area contains four portfolio options: 'Portfolio Grid' (with a red circle labeled '5'), 'Portfolio Slideshow', 'Works Carousel', and 'Worktype Albums'. At the bottom, there are buttons for '+ Preset Templates', 'Export Blocks', 'Import Blocks', 'Undo', 'Redo', and 'Clear All'. A preview area at the bottom shows a 'PORTFOLIO GRID' with 12 items, with a red circle labeled '6' over the preview area.

Portfolio Albums - Adding Details

The screenshot shows the 'Artwork' settings page with the following fields:

- Name:** Artwork
- Slug:** artwork
- Parent:** None
- Description:** No dolor dicam mollis sit, eu wisi equidem dissentunt qui. Ex usu nihil nonumy tractatos. 3
- Image:** Set Worktype image 4

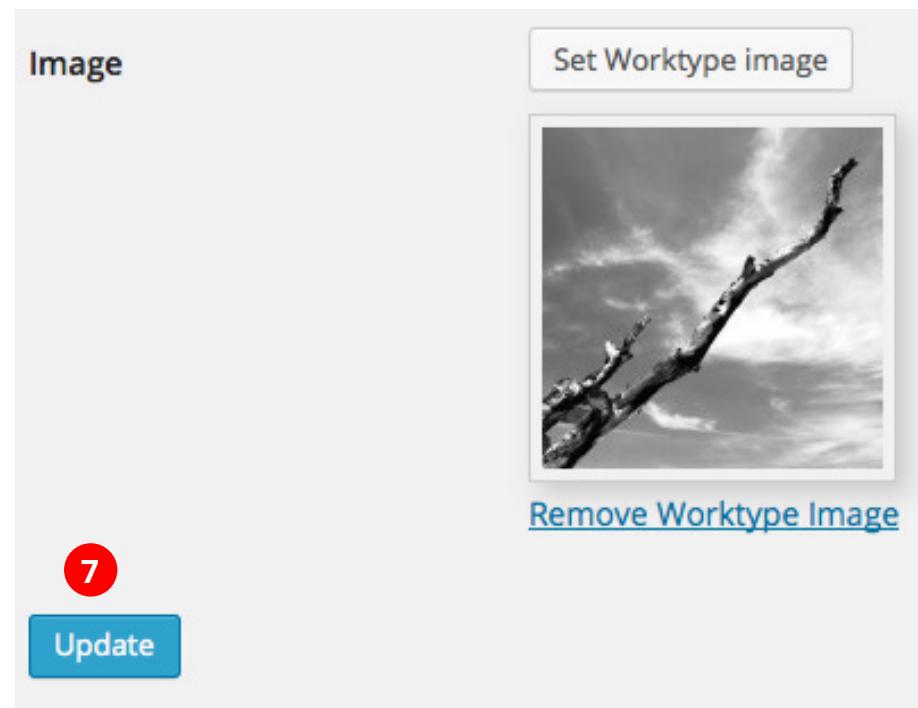

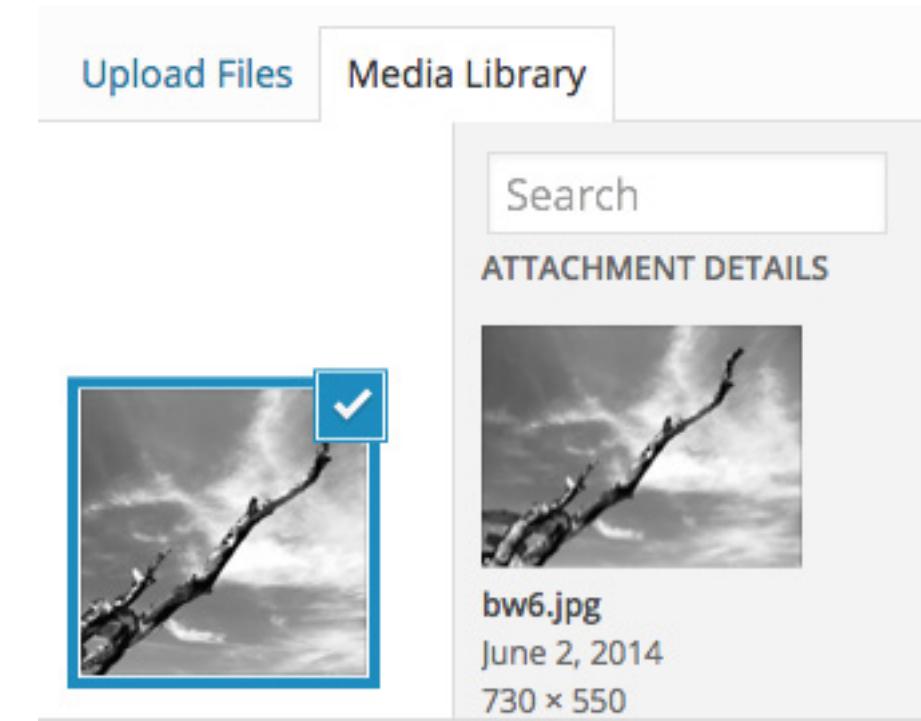

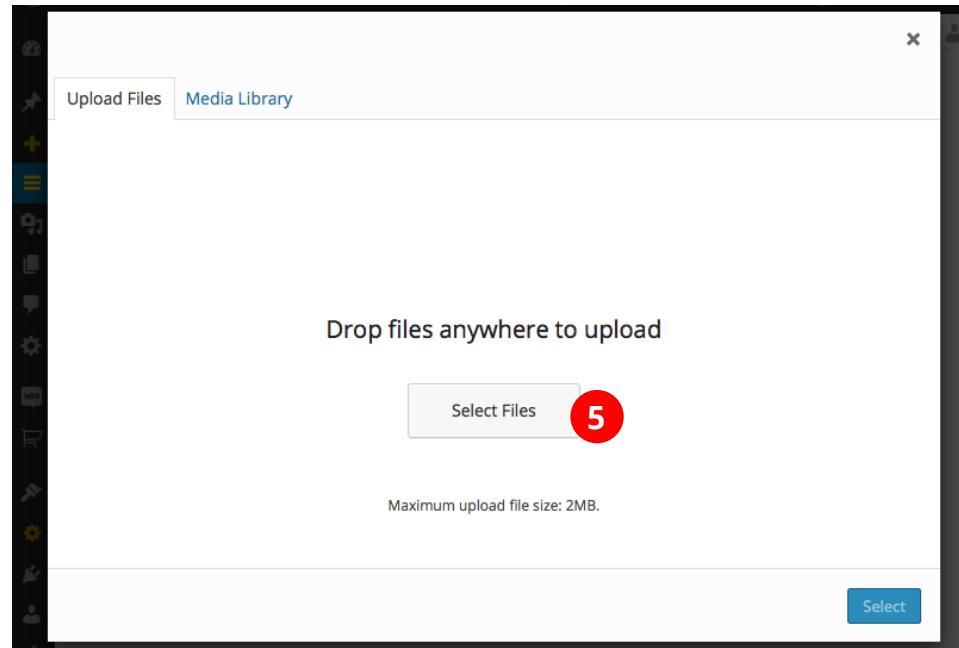

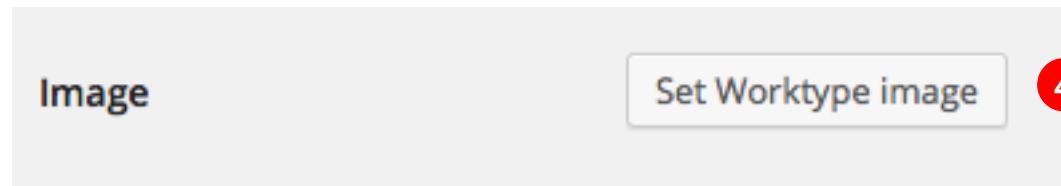

At the bottom left is a blue 'Update' button.

The name is how it appears on your site.

The "slug" is the URL-friendly version of the name. It is usually all lowercase and contains only letters, numbers, and hyphens.

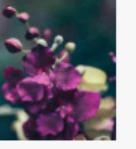

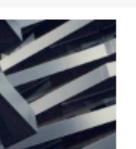

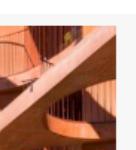

The description is not prominent by default; however, some themes may show it.

Work type categories

Set a Featured image to each of your Work type categories.

Once done proceed to generating albums on next page.

Generating WorkType Albums

The guide illustrates the process of creating a portfolio page with WorkType Albums.

- Pages:** Shows the 'Add New' button (1).
- Add New Page:** Shows the 'Enter title here' field (2).
- Confirmation:** Shows a message to 'Use Pagebuilder for this page' with a blue checkmark (3) and a red X (4).
- iMAGINEM Page Builder:**
 - Shows the 'Portfolio' tab selected (4).
 - Shows the 'Worktype Albums' block icon (5).
 - Shows the 'Publish' button (6).
- Worktype Albums:** Shows a preview of the generated portfolio page with six album items: ARTWORK, LINE ART, PAINTINGS, PENCIL & PEN, PHOTOS, and SKETCHES.

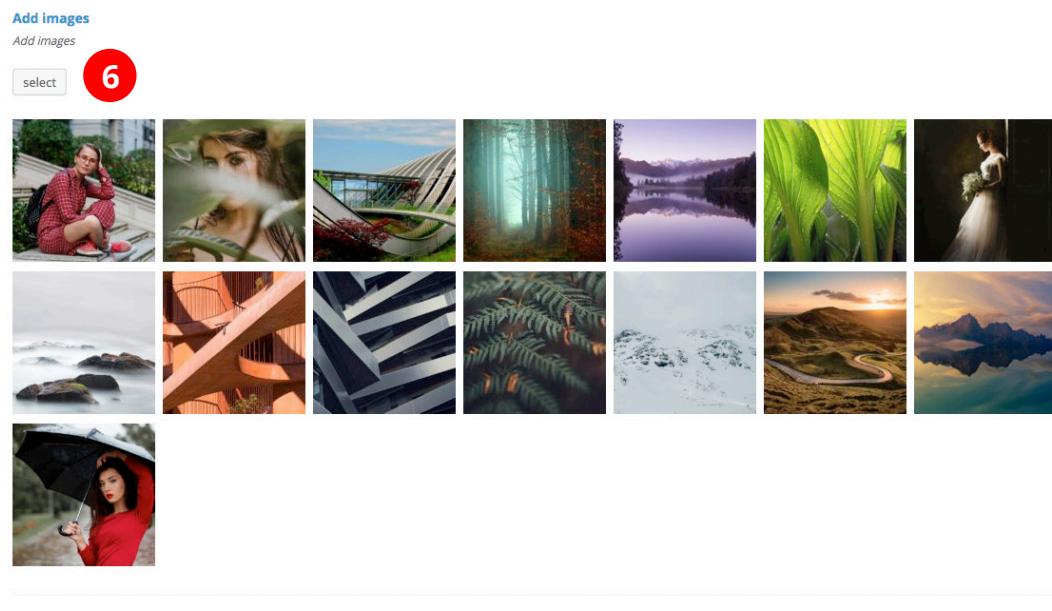

Thumbnail Galleries with Filterables

Thumbnail Galleries

The screenshot illustrates the process of creating a new page and adding a thumbnail gallery using the iMAGINEM Page Builder.

- Add New Page:** A modal window titled "Add New Page" is open, prompting to "Enter title here".
- Media Tab:** In the iMAGINEM Page Builder, the "Media" tab (3) is selected, indicated by a red circle with the number 3.
- Thumbnail Options:** A grid of thumbnail options is displayed, including "Thumbnails Grid" (4), which is highlighted with a red circle and number 4.
- Edit Block:** The "Edit" button (5) for the "Thumbnails Grid" block is highlighted with a red circle and number 5.
- Text Labels:** Labels "Edit thumbnails grid block" are placed near the "Edit" button and the "Thumbnails Grid" option in the builder interface.

Attach images in Thumbnails Block.

Choos 'Filter with Tags' if Filter is required.

Next choose each image and add a Filter Tag for each image.

Filter
Filter using image tags.

Aside

Custom Post Formats

Kreativa theme can build custom post formats. Post formats can be chosen from the Post Edit screen. The list appears as shown in the following screen shot.

When you select a post format additional options will relating the chosen post format. These extra options are available for Gallery, Link, Image, Quote, Video and Audio.

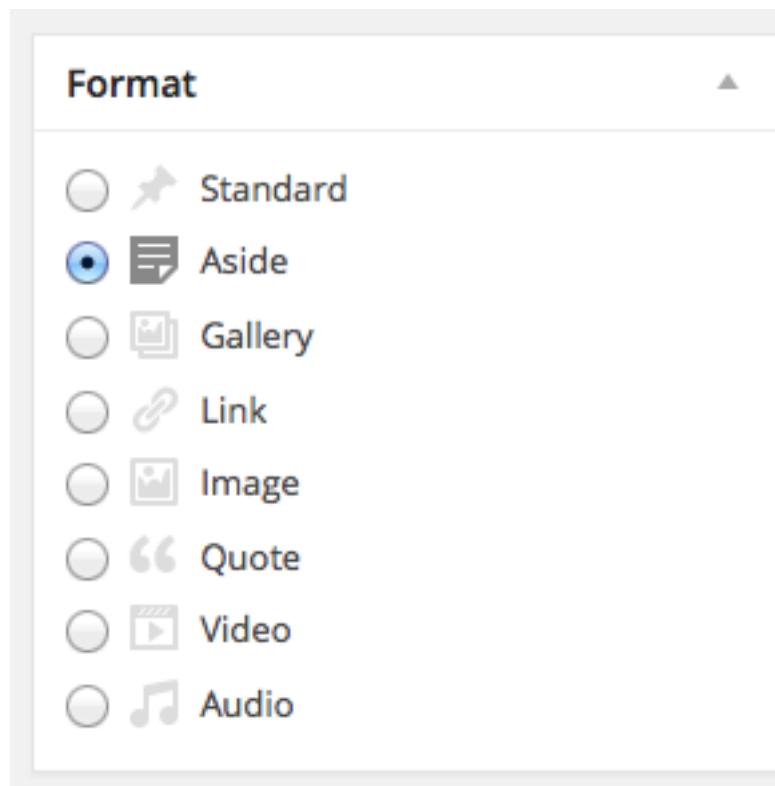

8 Custom post formats displayed on Right hand side of Edit Screen.

1. Standard Post

The screenshot shows the 'Add New Post' screen in the Kreativa theme. The sidebar on the left has a 'Posts' icon and the following menu items: All Posts, Add New (with a red '1' badge), Categories, and Tags. The main area has a title field labeled 'Enter title here' (step 2). Below it is a 'Format' block with a 'Standard' radio button selected (step 3). The content editor shows a sample text 'Lorem ipsum dolor sit amet, consectetur adipiscing elit. Nullam semper leo eget sapien ultrices vitae facilisis massa dictum. Fusce eu purus a urna accumsan' with a 'Fill contents' link (step 4). A 'Featured Image' block with a 'Set featured image' link (step 5) is shown below. At the bottom right is a 'Publish' button (step 6).

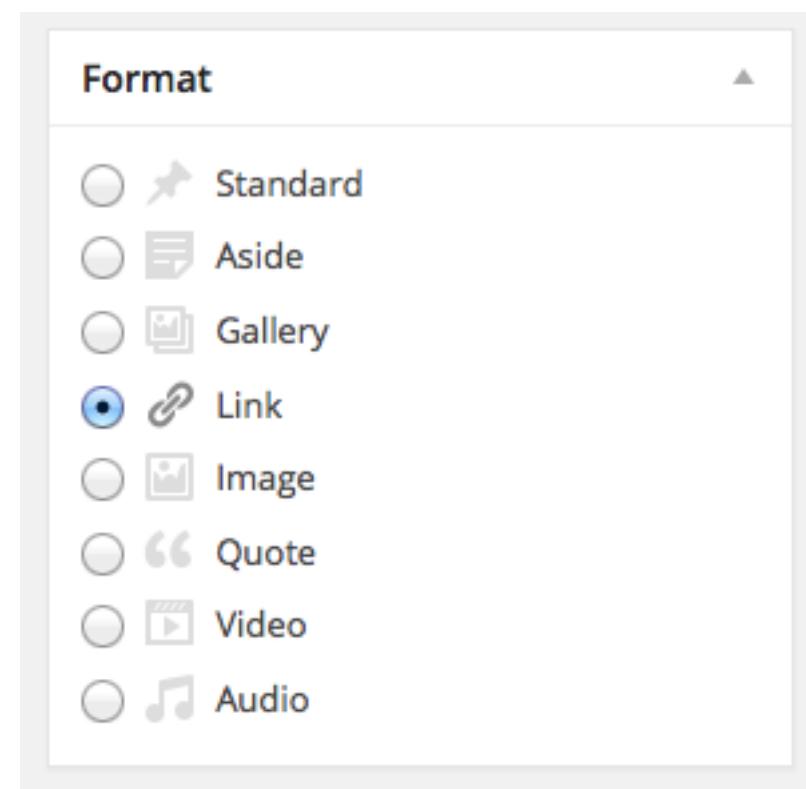

1. **Add New**
2. Enter title here
3. Standard
4. Fill contents
5. Featured Image
6. Publish

2. Aside post

An Aside is a custom post format which doesn't have a title. Very useful for small notes and such.

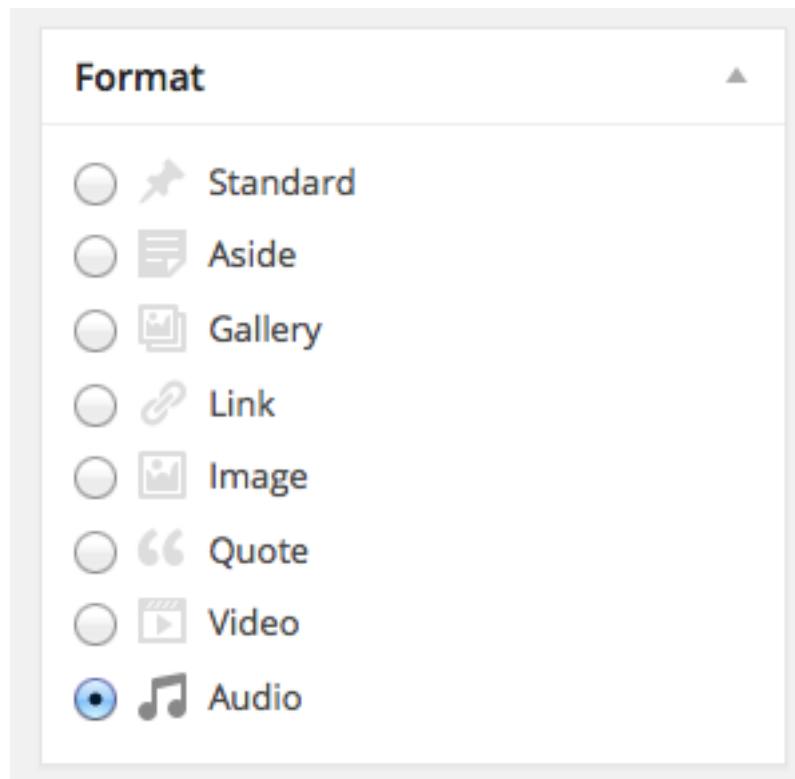

3. Link post

A screenshot of a "Link Metabox" containing a "Link URL" input field. Below the field is a placeholder text: "Please provide full url. eg. <http://www.domain.com/path/>".

Linked post can be linked anywhere.

4. Audio post

Audio Metabox

Audio post formats can generate an audio player for your post.

Audio Embed code

Audio Embed code

eg. Soundcloud embed code

HTML5 Audio

MP3 file

Please provide full url. eg. `http://www.domain.com/path/audiofile.mp3`

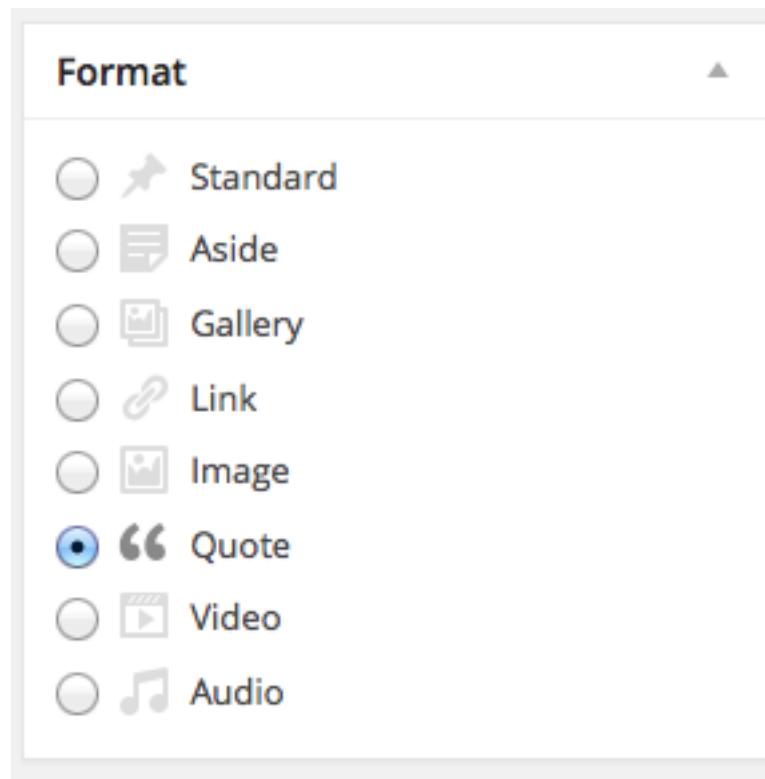

M4A file

Please provide full url. eg. `http://www.domain.com/path/audiofile.m4a`

OGA file

Please provide full url. eg. `http://www.domain.com/path/audiofile.ogg`

5. Quote post

Quote Metabox

7 Publish

Contact Page

Contact Form using Contact 7 Plugin

The screenshot shows the 'Contact Forms' page in the WordPress admin. A red circle labeled '1' points to the 'Add New' button. Another red circle labeled '2' points to the shortcode for the first contact form, which is displayed in the 'Shortcode' column.

Title	Shortcode	Author	Date
Contact form 1	[contact-form-7 id="5099" title="Contact form 1"]	admin	2013/09/09
Title	Shortcode	Author	Date

Use shortcode displayed here
to display your Contact 7 form
anywhere.

Creating the Contact Page.

The screenshot illustrates the steps to create a Contact page:

- Step 1:** In the left sidebar, under the "Pages" section, click "Add New" (marked with a red circle).
- Step 2:** Enter the title "Contact Page" in the "Enter title here" field (marked with a red circle).
- Step 3:** In the main content area, click on the "Shortcode" icon in the element library grid (marked with a red circle).

The right side shows a modal for selecting a page builder:

- Use Pagebuilder for this page:** A blue checkmark icon is selected.
- Using Page Builder:** A blue "Change" link is present.

The bottom section shows the Kreativa Page Builder interface with the "COLUMN CONTAINER" active, containing a yellow-highlighted "SHORTCODE" block (12/12). A callout points to the "Edit and add Contact 7 shortcode" button.

Sidebars

Custom Sidebars

The screenshot shows the 'Appearance' menu on the left with 'Theme Options' selected (marked with a red circle 1). In the main area, under 'Theme Options', the 'Sidebars' tab is active (marked with a red circle 2). The 'Sidebar 1' section is visible, featuring a 'Sidebar Name' input field (marked with a red circle 3) and a 'Sidebar Description' input field.

Activate Sidebars by entering a Name for it

You can activate sidebars on demand by giving the sidebars a name. Active sidebars are listed in the Widgets area.

Choice of Sidebar

Default Sidebar

For Sidebar Active Pages and Posts

Sidebar Selecting for Post & Pages

'Choice of Sidebar' option is found in all Post and Page editing screen.

Slideshows

Slideshows

The screenshot illustrates the steps to add a Slideshow block to a new page:

- Pages** menu: Shows the "Add New" button with a red circle containing the number 1.
- Add New Page**: The title input field is labeled "Enter title here" with a red circle containing the number 2.
- iMagine Page Builder**: The top navigation bar includes tabs for Elements (selected), Layout, Media (highlighted with a red circle containing the number 3), Portfolio, and Posts.
- Media section**: A grid of media blocks. The "Slideshow" block is highlighted with a red circle containing the number 4.
- Block preview**: A yellow preview bar at the bottom shows the "SLIDE SHOW 12/12" block with a red circle containing the number 5.

Edit and attach images
to the slideshow block

{ end }
